3. Coverage Area

The promotion is valid throughout the Brazilian territory, and also for residents abroad. It is available to participants from any region.

4. Eligibility

4.1. All individuals over the age of 18 and residing in Brazil can participate in the promotion.

4.2. To participate, those interested with Brazilian documentation must attend the event and activate their enrollment within the stipulated period (from March 25, 2025, to April 8, 2025), and maintain active enrollment for at least 8 (eight) days after the beginning of classes, without terminating during this period.

4.3. To participate, those interested with foreign documentation must attend the event, and after the documentation has been analyzed by the Culture and Extension Committee, they must activate their enrollment within 7 (seven) days after the documentation is approved.

4.4. Ineligible participants:

4.4.1. This promotion is not cumulative for students who have a discount from a partner company;

4.4.2. Registrations from participants in the scholarship process are not eligible

for this promotion;

4.4.4. The promotion does not include leads and active students from partner centers (POLO, Multicompany, MSG), nor leads from Angola, Japan, and the USA;

4.4.5. The promotion is exclusive to new applicants and does not include students who have terminated their applications in previous classes, nor will it be cumulative with current discounts, or any other type of discount. In the case of discount rights, such as payment in one installment, for example, the interested party must choose between the discount or the gift, and once the choice has been registered, it will not be possible to change the modality.

***Documentation Analysis:** For Brazilian students, the analysis of the documents for enrollment approval may take up to 5 (five) business days. For foreign students, the analysis of the documents for enrollment approval is carried out by the

equivalence of the diploma obtained abroad, in which a professor evaluates the content attended by the interested party and sends it for approval by the USP Culture and Extension Committee, in a meeting that takes place once a month at Esalq. Thus, the result of the equivalence analysis is provided one week after the meeting, and it is only through this meeting that students have their documentation approved or rejected. If the documentation is approved, the interested party can join the MBA, and if the documentation is rejected, the interested party must verify the reasons for the rejection, if they are interested in participating in a new selection process. Therefore, please wait for the analysis, as the committee can take 45 to 60 days to analyze the documentation.

5.4. Nonpayment Conditions:

5.4.1 If the participant does not pay the first installment within the stipulated period, their application may be terminated, without the right to the prize;

5.4.2 In cases of subsequent withdrawal or nonpayment, the application fee will not be refunded.

6. Prizes

6.1. The prize for participants resident and domiciled in Brazil consists of a personalized insulated cup (not cumulative with other benefits);

6.2. The prize for participants living and domiciled outside Brazil consists of an exclusive lecture;

6.2. There are no raffles; the benefit will be granted to the participants who complete their application and pay the first installment within the promotional period.
