WELCOME

The consumer has changed. Today, **they no longer look for products: it's the products that find them.** This is the essence of Discovery Commerce — a new model where discovery, inspiration, and purchase happen in the same place, at the same time, within the content we already consume every day.

Agenda

The path we will take together

- | | | | |

| 05 | Live Commerce: the Asian engine | 10 | The future: AI and Agentic Commerce |

What is Discovery Commerce

Concept, origin, and why it matters for your business

CONCEPT

Discovery Commerce, in a sentence:

It's a commerce model where **the consumer discovers and buys products while consuming content** — instead of actively searching for what they want. Discovery happens within the feed, video, live stream, conversation. The product finds the person.

BEFORE (Search Commerce)

The person searches for the product

Google, marketplaces, filters, searches

NOW (Discovery Commerce)

The product finds the person

TikTok, Reels, live streams, content, algorithms

Who coined the concept

Meta (Facebook)

The system was formally named by Meta in 2020, describing the technology behind Facebook, Instagram, and WhatsApp to anticipate consumer desires even before they know what they want.

"Products find people — not the other way around."

Why now?

- **Mobile-first** · hours a day on social media
- **AI & Machine Learning** · ultra-personalized recommendations
- **Gen Z and Millennials** · shop for inspiration
- **Short video** · TikTok, Reels and Shorts dominate

The 4 pillars of Discovery Commerce

01

Inspiration

Content creates desire: videos, reviews, lives, lifestyle

02

Personalization

Algorithms and AI deliver the right product to the right person

03

Frictionless

From discovery to checkout in a few clicks, in the app

04

Community

Social influence and creators at the center of the decision

The new journey of digital shopping

From linear funnel to continuous discovery cycle

PARADIGM SHIFT

From classic funnel to infinite loop

Traditional funnel (AIDA)

Linear, predictable, separate stages

New journey (Discovery Loop)

Circular, continuous, overlapping stages

PURCHASE JOURNEY

The new journey: TikTok discovers, Instagram desires, WhatsApp converts

AVERAGE TIME from discovery to purchase in Asian live commerce: **less than 7 minutes.**

BUYER PROFILE

Who is the consumer on this new journey

73%

of Brazilians have already
bought

via Instagram

66%

bought after
recommendation

from a creator

82%

state: viral trends

influence decision

Main platforms

Where Discovery Commerce happens daily

Meta · The system that named Discovery Commerce

Facebook · Instagram · WhatsApp

The ecosystem with the most behavioral data on the planet

74%

of people use Meta platforms
to discover brands

+18%

increase in ad impressions in
Q4/2025

73%

of Brazilians have already
bought products discovered
on Instagram

**30
products**

linkable per post on
Instagram Shopping (2026)

TikTok Shop · Where entertainment became sales

TikTok Shop · ByteDance

"People discover products on TikTok itself. We are just facilitating a behavior that already existed." — Eric Chien, Fashion Lead

**50
thousand**

active stores in Brazil

**500
thousand
+**

influencers promoting

US\$ 1M

in sales per day in Brazil

400M+

active global buyers

DISCOVERY ALGORITHM · the user accesses the platform for entertainment — and during entertainment, buys.

COMPLEMENTARY PLATFORMS

The complete discovery ecosystem in Brazil

YouTube

Long reviews, unboxings, technical authority, and brand building.

WhatsApp

Direct conversion, catalogs, customer service, and closing. 'The last mile' of the social funnel.

Pinterest

Inspirational discovery for home, fashion, events. Planned purchase with high ticket.

Kwai · Shopee Live

Lives and short videos with strong penetration among C/D audience and North/Northeast regions.

How Brazilians navigate the social ecosystem

This is the typical journey of the new Brazilian digital buyer profile. Each platform has a role.

Live Commerce the Asian engine

The biggest retail innovation since the smartphone

Where it all began (and where it's already a trillion dollars)

Timeline

2016

Taobao Live (Alibaba) launches the format

2019

Douyin/TikTok scale the model in China

2020

Influencers like Viya and Li Jiaqi sell billions in hours

2025

Live commerce = ~US\$ 700 bn and 30% of Chinese e-commerce

Taobao Live

Pioneer. Streams that generate +US\$ 1 bn in a single session.

Douyin

China's TikTok. GMV of ~US\$ 480 bn. Live = 40% of revenue.

Kuaishou

Strong in rural China, community and long-term creators.

Who is leading live commerce in national Retail

53%

of Brazilians are already familiar with live commerce

Instituto QualiBest

BRAZILIAN BRANDS THAT ALREADY INVEST

- **Riachuelo** • Live with Andressa Suita and Simone & Simaria — record audience in the country
- **Magazine Luiza** • Black das Blacks with Luciano Huck, multiplatform
- **Americanas** • Americanas Live Project: +10x product search, 7x higher conversion
- **Natura, Boticário, Arezzo** • Recurring lives in fashion and beauty
- **B2B Industrial** • Netshow.me: 1h30 live generated +BRL 25 million

Anatomy of a sales live stream that converts

01

Authentic presenter

Brazilians want warmth, humor, someone who seems like a friend — not a salesperson.

02

Real product demonstration

Show texture, fit, functionality. Answer questions in real time.

03

Sense of urgency

Flash deals, exclusive live stream coupons, visible limited stock.

04

Live social proof

Chat comments appear on screen. Purchases happening in real time.

05

Integrated checkout

Purchase within the platform — without leaving the live stream. Fewer clicks = more conversion.

06

Recurrence and routine

Every Wednesday at 8 PM. Creates habit, community, loyal audience.

DNVBs

digitally native brands

The companies born for this new retail

CONCEPT

DNVB: Digitally Native Vertical Brand

Brands that **are born 100% digital, sell directly to the consumer (D2C)**, and control the entire chain — from production to after-sales — without relying on intermediaries.

Term coined in 2016 by Andy Dunn, founder of Bonobos. Today it is one of the main forces of the new Retail.

100% Digital

Communication, sales, and online relationship

Vertical (D2C)

Controls the entire chain, without intermediaries

Community

Co-creation and direct relationship with the customer

4-5x Margin

Greater than traditional e-commerce

The digital brands that became global references

Warby Parker

Eyeglasses

Sold eyeglasses online with home try-on.
IPO of US\$ 6 billion.

Glossier

Beauty

Born from the blog Into the Gloss. Valued at
US\$ 1.8 billion in 2021.

Dollar Shave Club

Hygiene

Sold razor blades by subscription. Acquired
by Unilever for US\$ 1 billion.

Kylie Cosmetics

Makeup

US\$ 420M in 18 months, only on social
media.

Fenty Beauty

Makeup

Rihanna: US\$ 100M in the first 40 days.
132M views.

Allbirds

Footwear

Sustainable sneakers. IPO valued at US\$ 4B.

Brazilian brands that were born digital and are winning

Sallve

Beauty

Skincare with co-creation. Engaged community and products co-developed with customers.

Amaro

Fashion

Hybrid Guide Shops: physical experience, digital purchase. Pioneer of D2C omnichannel.

Zissou

Sleep

Bed-in-a-box. 100-day mattress trial. Showroom in SP.

Dr. Jones

Men's hygiene

+35% monthly Revenue during pandemic. Investment of BRL 6M (2020).

LivUp

Food

Foodtech for healthy frozen meals. Expanded into fresh organic produce.

Pantys

Absorbent panties

Delicate topic handled with purpose and community. Flagship brand for female D2C.

Yuool

Footwear

Expectation: 1,500 pairs in the 1st year. Sold +500% of that. 20,000 pairs in the 2nd year.

Insider

Performance fashion

Technological fabrics. Meteoric growth in premium men's online.

Cases of global success

The players who rewrote the rules of digital Retail

Shein, Temu and TikTok Shop: the Chinese tsunami

SHEIN

Digital fast fashion

US\$ 50 billion

Estimated Valuation

150 countries

Global operation

Pure discovery: 6 thousand new items/month, discovery via TikTok, Instagram, and ads. Radical test-and-learn model.

TEMU

Impulse marketplace

150M

Active apps in the US

Super Bowl

2 consecutive ads

Discovery via extreme gamification and unbeatable price. PDD Holdings became a global giant of discovery + discount.

TikTok Shop

Discovery + Purchase

US\$ 17B

Meta GMV US 2024

US\$ 66B

Global GMV

ByteDance's big bet outside China. By 2026, +20% of US social commerce.

OTHER GLOBAL PLAYERS

Who else is betting big on discovery and live

Amazon Live

24/7 live streams with influencers, integrated with Prime. Attempt to replicate Taobao in the West.

ChatGPT Shopping

OpenAI prioritizes discovery via AI. Visual comparison, conversation, and natural language search refinement.

Pinterest Shopping

Inspirational discovery. Strong for long-term decisions (home, events, fashion) with high tickets.

Snap Inc. (Snapchat)

AR try-on, sponsored lenses. Immersive shopping with camera. Strong with global Gen Z.

YouTube Shopping

Long reviews, technical authority. Product tags and partnership with Shopify for checkout.

Shopify Agentic

Catalog integration with agent AIs (ChatGPT, Claude). 'Agentic commerce' — AI buys for you.

MODULE 08

Brazilian cases that inspire

Expressive results in national retail

Brazilian brands that prove the model

AMERICANAS LIVE · FEATURED CASE

+10x

increase in search for products displayed in live streams, with 7x higher conversion than regular e-commerce.

Pioneer of live commerce in Brazil — started in June 2020.

+4.500%

TikTok Shop

GMV Growth (US\$ 1M → US\$ 46M)

R\$ 25M

Live B2B

In a 1h30 broadcast (Netshow.me)

Record

Riachuelo

Largest sales live stream in Brazil by audience

+90%

Ri Happy

Monthly traffic in December/2025

How to apply Discovery Commerce in your retail

01

Map where your audience consumes content

TikTok, Instagram, YouTube or Kwai? Each profile has its platform. Start with the network where you already have more relevance.

02

Structure a continuous content operation

3 to 5 videos per week. Product demonstration and storytelling first. Algorithm rewards consistency.

03

Activate creators and affiliates

Pay per sale generated, not per post. TikTok Shop and Shopee models create armies of engaged sellers with no fixed cost.

04

Start small with live commerce

One event per month. Limited stock, exclusive offer. Learn on air — then scale to a weekly routine.

05

Integrate WhatsApp into the funnel

It's the Brazilian 'last mile'. Catalog, human service, cart recovery, and after-sales.

06

Measure what matters

View-to-cart, live conversion, GMV per creator, social vs. traditional average ticket. First-party data is gold.

The next wave: AI and Agentic Commerce

Discovery → Decision → Action

AI will not just recommend products. It will research, compare, negotiate, and buy for you. 'Agentic Commerce' is the next chapter.

Agentic AI

ChatGPT Instant Checkout, Shopify Catalog, Agentic Commerce Protocol (ACP). AI completes the purchase.

Live B2B

Industries and distributors broadcasting live to retailers. Movements of R\$ 25 million in hours.

Community > Conversion

Brands that build a loyal audience pay less for acquisition and grow with recurrence. The asset is the tribe.

THANK YOU

The product meets the person — not the other way around.

This is the new Retail. Whoever understands discovery before the competition wins.

Questions, doubts, and ideas?

Thank you!
